EVERYDAY SHINE

A little routine goes a long way for those polished surfaces.

- Wipe with a soft, damp cloth; microfibre works best.
- Dry immediately with a clean cloth to prevent water marks.
- Dust weekly to keep surfaces looking fresh and bright.

EXTRA PROTECTION TIPS

Keep it elegant for the long run.

- Rotate décor items occasionally to prevent uneven fading or scratches.
- Use trivets under hot dishes and coasters under anything wet.
- For stubborn stains, use a pH-neutral stone or ceramic cleaner.

CELEBRATE THE NATURAL LOOK

Marble, granite, travertine, and sandstone are natural materials; each piece is unique.

- Expect subtle colour, veining, and pattern differences.
- These natural variations are part of the charm.

THINGS TO AVOID

These surfaces are stylish but have limits.

- No vinegar, lemon, or acidic cleaners, as they can dull or etch stone.
- No abrasive pads or powders, as they can scratch and damage the finish.
- Don't cut directly on the surface; always use a cutting board.

Note: Structube does not endorse specific cleaning products. Always consult a stone or ceramic care professional for product recommendations and specialized treatments.

LOVE IT LIKE IT LOVES YOU

Stone and ceramic pieces are timeless when cared for right. With a little attention and a lot of love, they'll remain stunning centrepieces for years to come.

Thank you for making Structube part of your home!
