

UPHOLSTERY CLEAN & CARE

Your homey companion deserves the royal treatment.

STRUCTUBE
j'adore!

Visit your product's page at www.structube.com for detailed care and guidance instructions, or contact our Customer Service team.

ROUTINE TLC (TENDER LOVING CLEANING)

Keep your fabric fabulous with just a little love.

- Vacuum regularly using a brush attachment (once a week is ideal).
- Pet fur magnet? Use a lint roller or fabric-safe brush to keep things fresh.
- Rotate and fluff cushions to maintain their shape and avoid lumpy surprises.

THINGS TO AVOID (SUNLIGHT & SPILLS)

Your furnishing's worst adversaries? The sun and sauce.

- Keep furniture away from direct sunlight; fading is real.
- Clean up spills ASAP. Blot gently with a dry cloth, no scrubbing!
- Spills love an uninvited stay—blot them quickly before they settle in.

SPOT CLEANING SMARTS

When things get messy, don't panic.

- Mix a small amount of mild dish soap with lukewarm water.
- Test it first in a hidden spot (like behind a cushion).
- Dab gently with a clean cloth, do not oversaturate!
- Dry with a fan or hairdryer (no heat) to prevent water rings.

WHAT NOT TO DO

These are a no-go for your upholstery.

- No bleach, harsh chemicals, or upholstery sprays. They are not meant for your fabric type.
- Don't remove cushion covers unless your care label says it's OK.
- Don't rub stains, it'll only make them worse.
- Don't drag your furniture, lift with care; save the legs.

EXTRA TIPS FOR A LONG LIFE

A little effort = years of comfort.

- Designed for residential use only, no breakroom naps, please!
- Use arm covers or throws in high-contact areas for extra protection.
- For deep cleans, call in a professional upholstery cleaner once a year (like a spa day for your couch!).

TAG CHECK!

When in doubt, check the materials first, then clean with confidence!

Structube products include a tag that lists the materials used —like polyurethane foam, vinyl, or fabric blends. While it may not contain detailed cleaning instructions, knowing the materials helps you determine the right care approach.

COMMERCIAL UPHOLSTERY CARE

Built for Business, Cared for Like Home.

- Structube commercial-use items are designed for durability in high-traffic environments.
- Clean regularly to extend lifespan and maintain appearance.
- Use non-abrasive, commercial-grade cleaners appropriate for each material (wood, metal, upholstery, etc.).
- Avoid prolonged exposure to moisture, spills, or harsh chemicals.
- Check all joints, screws, and fittings periodically and tighten as needed.
- Use felt pads under legs on hard floors to prevent scratches.
- Protect upholstery with arm covers or slipcovers in busy public areas.
- For seating, use responsibly and avoid extreme stress or misuse. While some online listings may show static load ratings, these reflect laboratory conditions and may not represent real-life use. Structube items are not specially reinforced and should be used as intended for best performance.
- Schedule regular professional cleaning depending on usage level.

Note: Structube does not endorse any specific fabric or upholstery cleaning products. For the safest results, always test a small hidden area first or consult a professional upholstery cleaner.

LOVE IT LIKE IT LOVES YOU

Your sofa, chair, or ottoman is more than furniture; it's part of your home story. Treat it well and it'll return the favour with lasting comfort and style.

Thank you for making Structube part of your home!
