

WOOD CLEAN & CARE

Strong, beautiful, and timeless, keep your wood looking wonderful.

STRUCTUBE
j'adore!

Visit your product's page at www.structube.com for detailed care and guidance instructions, or contact our Customer Service team.

EVERYDAY CLEANING

Keep your wood furniture warm and welcoming.

- Use a soft, lint-free cotton cloth to dust weekly.
- Lightly moisten the cloth to capture dust, never soaking wet.
- Always wipe with the wood grain to protect the finish.
- Avoid commercial cleaners; their chemicals can harm wood over time.

HUMIDITY & TEMPERATURE CARE

Wood lives and breathes with your home.

- Sudden humidity changes can cause warping or cracking.
- Wood is most vulnerable when shifting from hot & humid to cool & dry climates.
- Keep furniture away from radiators, fireplaces, or heat vents.
- If near an air duct, avoid direct airflow on the wood.
- Store table leaves close to the table to help them adapt to the same humidity.
- Winter dryness can be harsh; consider a humidifier for extra care.

AVOID DIRECT SUNLIGHT

The sun may be warm, but it's wood's worst frenemy.

- Prolonged sunlight fades finishes and can bleach wood.
- Uneven exposure can make furniture look patchy or pale.
- Keep wood out of direct sunlight whenever possible.

Note: Structube does not endorse any specific wood cleaners, oils, or polishes. For the safest care, use only gentle, non-abrasive products. For stubborn stains or refinishing, consult a professional furniture care specialist.

PROTECT FROM HEAT, CHEMICALS & SCRATCHES

Little habits make a big difference.

- Clean spills immediately to prevent damage.
- Always use coasters, placemats, and heat-resistant pads.
- Avoid newspapers or magazines on wood; ink can bleed into the finish.
- Plants, flower nectar, and oils from skin can stain wood.
- Lift décor items instead of dragging them to prevent scratches.
- Rotate items occasionally to keep colour and wear even.

SEASONAL CHECK-IN

A little seasonal love goes a long way.

- Inspect for loose joints or screws and tighten gently if needed.
- Check for minor cracks or shifts. Natural wood movement is normal.
- Add felt pads to protect legs and floors when moving furniture.

LOVE IT LIKE IT LOVES YOU

Wood is naturally unique; no two pieces are the same. With regular care and protection, your Structube wood furniture will remain beautiful for many years.

Thank you for making Structube part of your home!
